

## Why Convergia Cloud Voice 3CX?

Simple, affordable and flexible, Convergia Cloud Voice 3CX eliminates the cost and management headaches of outdated, traditional phone systems, or the limitations of a shared cloud PBX. With the PBX hosted in the cloud, clients can take control of their phone system anywhere while cutting costs!

## How does it work?

As Convergia hosts the PBX in the cloud, clients can gain quick access to their phone system via the application, web-browser or IP-phone. Make calls, chat and make web conferences from anywhere, through any device with an internet connection.

## Solution Features

- Inbound/Outbound Calling
- Call Parking/Pickup
- Auto Attendant/Digital Receptionist (IVR)

## Solution Benefits

### Constant Connectivity

No matter the time or place, clients and their employees can access meetings, make, and receive calls and messages from anywhere in the world.

### Quick Installation

The client can easily deploy a phone extension with an application, physical desk phone, or web browser.

### Cost

Convergia Cloud Voice 3CX is more affordable hosted in the cloud than on premise, because Convergia covers the maintenance, administration, power, support and warranty, all while keeping clients updated.

### Coverage

Convergia helps you implement this solution with our PSTN service throughout Pan-America; Canada, United States, Mexico, Colombia, Peru, Chile, Argentina, and Brazil.

## Competitive Advantages

- Convergia takes care of management and server updates so you don't have to
- Maintain **full functionality** of the office from anywhere in the world
- Simple and quick set-up; download the 3CX app and be connected
- Call, chat, **create meetings** and video call all in the same environment
- Users can see who is logged in as well as **manage chat messages, voicemails, and meetings.**
